

## SUBJECT INDEX FOR VOLUME 25

Africa, ethno-medicine in, 803–811

AIDS, as a social phenomenon, 529–552

alcohol, and smoking in general practice, 1129–1137

alcoholism, and its prevention, 949–960

alternative medicine, evaluation of, 659–678

anthropology, and illness prevention in North America, 921–966

asthma, and treatment in childhood, 1033–1038

Belgium, mortality rates, 485–493

bereavement, among Cambodian refugees, 765–772  
1021–1025

biopsychosocial medicine, 1213–1218

breast feeding, changing patterns, 1307–1320

breast feeding patterns, in Nigeria, 97–98

caesarean delivery, 1269–1276

Canada, support for cardiac surgery patients in, 833–837

cancer, and the family, 1021–1025

cardiac surgery, and social support in Canada, 833–837

catecholamine excretion, and lifestyles, 981–986

child feeding, in developing countries, 1307–1320

child health, in South Asia, 231–239  
and asthma treatment, 1033–1038  
and low birthweight, 1321–1327

childhood mortality, in an English city, 9–18  
intra-urban variations, 889–894

child nutrition, and cultural change in Yemen, 1-7

chlamydial trachomatis, and social science, 1289-1299

community health, and epidemiology, 895-903

cultural change, in Yemen, 1-7

diagnosis, in general practice, 861-866

Diagnosis Related Groups (DRGs), for Medicare patients, 1259-1267

diarrheal illness, in Ecuador, 1147-1155

disability, and social support, 29-34

dracunculiasis, and population mobility, 1073-1081

drug programmes, 621-630

drug use, and consultation behaviour, 43-46  
and the health care system, 65-73  
in Sri Lanka, 319-321

Ecuador, child health and ethnomedical treatment in,  
1147-1155  
and family health, 1157-1162

Egypt, child diets in, 401-404

El Salvador, public health care in, 867-874

emergency care, 825-831, 1121-1127

epidemiology, and medical sociology, 579-587  
and prevention programmes, 589-598  
and community health, 895-903  
905-910  
987-993

Ethiopia, illness and health behaviour in, 1003-1019

ethno-medicine, in Africa, 803-811

family health, and mental illness, 263-272  
and psychosocial knowledge, 1249-1255

family practice, and health promotion, 961–966

Finland, smoking habits in, 875–881

fluoridation, 1329

general practice, 43–46

sex differences in consultation rates, 507–513  
and the diagnostic process, 861–866  
smoking and alcohol in, 1129–1137

German Democratic Republic, sports medicine in, 19–28

Guatemala, and health care in, 1163–1173

health, and unemployment, 99–225

health behaviour, and illness in, 1003–1019

health beliefs, and community health, 615–620  
among psychiatric outpatients, 1205–1211

health care, in Yugoslavia, 35–41

and drug utilization, 65–73  
in Sweden, 103–110  
in cross-cultural perspective, 329–417  
and social science, 689–696  
and the community, 783–791  
in El Salvador, 867–874  
in rural areas, 1083–1094

health care organization, 481–484

health care policy, 733–740

health care practice, and socio-behavioural scientists,  
679–687

health care professionals, education of, 599–604

health education, in Kenya, 1225–1234

health insurance, and the working poor, 1183–1187

health service efficiency, 461–472

health status, and medical expenditure, 883–888

heart disease, and economic change, 119–132  
and type A behaviour, 969–979

Hong Kong, concept of disease causation in, 405–417

Honolulu, humoral systems in, 367–376

hospitalization, 711–732

hospital technology, and illness in an American State, 75–87

hot–cold food, and medical theories, 329–417

humanism, and medicine, 35–41

humoral medicine, 331–337

illness behaviour, 1197–1203

India, self-medication in, 307–318  
hot–cold beliefs in, 389–399

influenza, 987–993

international health agencies, 1311–1306  
1039–1048

Ireland, non-attendance at clinics in, 1189–1196

Kenya, birth seasonality in, 793–801  
economic aspects of health facilities in, 995–1002  
and health education, 1225–1234  
and interaction between indigenous and western  
medicine, 1277–1287

maternal and child health, services in Sweden,  
515–524  
553–559  
1235–1248

maternal health, in Southeast Asia, 357–365

medical education, 599–604  
  in Pakistan, 911–919

medical ethics, 631–644  
  in primary care, 705–709

medical expenditure, and health status, 883–888

medical students, their coping resources, 1057–1062  
  their residency and specialty choices, 1063–1068

medical theories, and hot–cold food in cross-cultural perspective, 329–417

medicine, the political abuse of, 645–657

mental health, among Hmong refugees, 941–947  
  beliefs and compliance among patients, 1205–1211  
  and unemployment, 1219–1224

mental illness, and labelling, 251–261  
  and the family, 263–272

mental retardation, and the legal system, 1027–1032

methodological issues, 753–764

migration, and acculturation in Peru, 839–847

morbidity, mortality and religion, 813–824

mortality, and heart disease, 119–132  
  427–441  
  in Belgium, 485–493  
  morbidity and religion, 813–824

mortality data, 773–781

New Zealand, and health for all by AD 2000, 473–479

Nigeria, breast feeding patterns in, 97–98  
  health care in rural areas, 1083–1094

North America, prevention and anthropology in, 921–966

Nottingham health profile, 905–910

nursing, and the physician–nurse collegiality, 421–425

onchocerciasis, prevention programmes, 241–249

osteopathy, and problems of professionalisation, 1111–1120

pain, 1095–1104

Pakistan, medical education in, 911–919

participation, in community health, 605–620

Peru, psychiatric epidemiology in, 839–847

pharmaceuticals, in the third world, 273–321

Philippines, drug use in, 277–292

poverty, and health insurance, 1183–1187

prevention, and anthropology in North America, 921–966

primary health care, and community health workers,

443–459

741–746

in developing countries, 747–752

and diagnosis, 861–866

1249–1255

professionalisation, and osteopathy, 1111–1120

religion, morbidity and mortality, 813–824

reproduction trends, 697–704

rheumatoid arthritis, 89–95

Samoa, male stress in, 981–986

self-care, in South Cameroon, 293–305

self-medication, in a Filipino village, 277–292  
in India, 307–318

sex differences, in general practice consultation rates, 507–513

sexually transmitted disease, and patient distress, 1197–1203  
and the social sciences, 1289–1299

smoking, in Finland 875–881  
and general practice, 1129–1137

smoking behaviour, and family health, 47–56

social networks, and emergency care, 825–831  
social support and mental health, 849–859  
and the elderly, 1049–1055

social policy, and professional self-interest, 1259–1267

social scientists, and health care, 689–696

social support, and disability, 29–34  
and the elderly, 1049–1055

socio-economic, environment and child mortality, 9–18

South Asia, child health and development in, 231–239

South Cameroon, self-medication in, 293–305

Southeast Asia, maternal health in, 327–365

Soviet Union, sports medicine in, 19–28

Spain, the subterranean economy in, 111–113

sports medicine, in Eastern Europe, 19–28

Sri Lanka, drug use in, 319–321  
traditional health care in, 377–387

stigmatization, and mental illness, 251–261

stress, and disease, 561–578

suicide, a prevention programme, 931–940

Sweden, employment and health care in, 103–110  
    unemployment of women in, 153–161  
    economic change and health in, 183–195  
    maternal and child health services in, 515–524  
    social networks and mental health problems in,  
        849–859

third world, and pharmaceuticals, 273–321  
traditional medicine, in Vietnam, 1105–1110  
    and co-operation with western medicine in Kenya,  
        1277–1287

unemployment, and health, 99–225  
    and older workers, 173–178  
    and mental health, 1219–1224

U.K., unemployment and mental health in, 1219–1224

U.S.A., capital intensive hospital technology in, 75–87

Venezuela, herbalism in, 1139–1146

Vietnam, traditional medicine in, 1105–1110

water-contact, and disease spread in Zimbabwe, 495–505

W.H.O., unemployment and health, 201–204

women's health, and smoking, 47–56  
    and labour force status, 57–63  
    in Honolulu, 367–376  
        1139–1173  
    pregnancy in urban black women, 1321–1327

women's unemployment, in Sweden, 153–161  
    163–171

Yemen, cultural change and child feeding practices in, 1-7

Yugoslavia, health care in, 35-41  
and unemployment, 209-212

Zimbabwe, water-contact and disease spread in, 495-505
